

Innovation without stops.

Vision®

Can a seat really improve your ride? When it's easy to install and maintain; when it looks as good as it performs; and when it offers the utmost in comfort and lasting durability. The answer is clear. The right seating makes all the difference. Stop by booth #3437 and see where innovation is heading or visit americanseating.com for more information.

Listening. Designing.

Investing in public transportation.

American Seating continues to evolve with public transportation needs.

The Individual Flip-Up seat, available in both Insight® and Vision®, solves a trending need in public transit – where to put your large carry-on items like carts and strollers. Now, passengers can keep their items close while keeping the aisles and ADA areas clear – without compromising seating capacity.

Check out the Individual Flip-Up seat on Insight and other innovative American Seating products at Booth #3437, or visit americanseating.com for more information.
