

Ecoliner Event Invitation

Introducing the first fast-charge electric bus line in the country

La Verne and Pomona aren't just cities anymore - they're ElectriCities. That's because they're served by Foothill Transit Line 291, which is about to become the first fast-charge electric bus line in the country. Once this line is powered exclusively by Ecoliner zero-emissions electric buses, its customers can experience all this:

- Smooth, whisper-quiet rides
- Healthier communities with cleaner air
- Revolutionary batteries that charge in just 10 minutes

Join Foothill Transit as we celebrate our community's latest exciting innovation - the new, all-electric Line 291!
